VINE-GROWING

The grapes for this vegan and organic wine are sourced from vineyards grown according to organic growing criteria in a balanced, caring and sustainable way. The vineyards' soils carry great importance, being very active with good biological conditions which favour a fast assimilation of reincorporated organic matter. This enables full terroir expression.

WINE-MAKING

Each variety is harvested and vinified separately. After rigorous ripeness testing, the winery's technical crew determine the optimal alcoholic degree for picking. The harvesting is done at night to avoid any oxidation of the juices and to preserve the subtlety of the aromas. After the grapes have arrived at the cellars, the free-run juices, coming from gentle pneumatic pressing, are settled with the help of the must chiller. The resulting clear must is racked and then fermented at a controlled temperature to bring out the wine's optimal aromatic expression. When the fermentation is finished, the wine is then racked and kept on its fine lees, thus protecting it from any oxidation and bringing extra body and smoothness. The fining, stabilization and filtering processes before bottling are carried out with the greatest care in order to preserve all of the wine's character.

TASTING NOTES

Pale yellow with bright, clean, green glints.

On the nose, aromas of white flowers, tropical fruit, apricot peel and fennel come through. Very complex and elegant.

Fresh on the palate and at the same time full. Savoury with excellent acidity, very balanced with a long, perfumed finish.

SERVING RECOMMENDATIONS

Excellent with all types of rice dishes or seafood, as well as with Asian food, such as sushi and sashimi.

Best served at a temperature of 8-10°C.
